

Grades 6, 7, 8 - Scope and Sequence

Middle School Spanish

Structure and Method- The students in grades K-5 will learn Spanish through songs, games, hands-on activities, meeting five times a week to promote proficiency in language skills. The students in grades 6-8 will continue to learn Spanish through the Florida Virtual School on-line lessons.

Book- ¡Viva el español! - McGraw Hill

The students will learn to speak, understand, read and write Spanish. They will develop progressive communication skills that allow them to converse with Spanish speaking people using proper greetings, introducing themselves, talking about themselves, asking questions, expressing likes and dislikes, and will learn content words such as colors, foods, days of the week, months of the year, family members, weather, and more. They will learn to respond to commands using the TPR method, which stands for Total Physical Response, developed by Dr. James J. Asher, and the Natural Approach, developed by Dr. Stephen Krashen which is a method that teaches material in context. They will learn about the vast Spanish speaking world and explore its culture and geography.
